OUTREACH REFERRAL FORM

COMMUNITY OUTREACH SERVICES

Partners in Recovery (PIR)

Partners In Recovery is a government service directed by a team of respected agencies from different sectors, including Medicare Locals and Mental Health organisations. Richmond Wellbeing is the only NGO run PIR service in Australia. The PIR service works to support those who experience mental distress on their journey to recovery by connecting them to the right supports – be they traditional or contemporary.

The PIR service provides care coordination through connecting Network Members and the consumer to provide ‘wraparound’ services. Through a collaborative system that fully involves the individual, agencies, service providers, families and carers, consumers engaging our service can plan a personalised journey that leads them toward recovery - that is in pursuing a good life (whatever that means to them). Finding services and supports to enable mental health recovery can be difficult in an age where recovery services are new. There is a myriad of services available, but trying to access those services which enable recovery can be overwhelming.

Our team can assist you to find your way. Utilising the PIR service enables people to access an array of services that are available in their local community with the support of a ‘support facilitator’ and have those services coordinated, so that each of *the person’s needs are addressed.

Personal Helpers and Mentors service (PHaMs)

The PHaMs service assists people aged 16yrs+, who are experiencing severe distress to embark on a journey of recovery. In a coaching style support relationship, we work alongside people to dream, plan and do. Our staff work in person-centered ways to facilitate self-empowerment by providing holistic support. The Richmond Wellbeing PHaMs services operate in the Bentley & Midland/Guildford areas.

Integrated System of Care (ISC) Belmont

ISC Belmont is funded by WAPHA to work with people from culturally and linguistically diverse (CaLD) communities to support social and emotional wellbeing. This program provides short-term assistance and referral pathways for long-term support to people who experience mental health issues and alcohol and other drug (AOD) problems. This program also provides opportunities for capacity building to the CaLD community.

NDIS/WA NDIS

NDIS is a service that endeavours to provide individualised support for people with an ongoing mental health diagnosis. NDIS takes a person-centred strength based approach, working with participants, their families and carers to develop an individualised plan. NDIS aims to connect participants with their community, and mainstream supports help participants pursue their goals and aspirations to participate in everyday life. NDIS and WA NDIS are both the NDIS, but are available in different areas of Western Australia. Please visit our website at www.rw.org.au, to find out which scheme you can apply for. Richmond Wellbeing is able to assist in applying to NDIS or WA NDIS, support co-ordination of an existing plan, and/or service delivery.

More information on each of these services is available on our website www.rw.org.au. If you require assistance in selecting the right service, please contact our Intake Officer at intake@rw.org.au or 1800 742 466.
