A SAFE AND SUPPORTIVE COMMUNITY FOR SELF-DISCOVERY & HEALING

Richmond Wellbeing's Recovery House is a program focused on rebuilding and reconnecting with yourself and others. It is a place to explore your vision, nurture your courage and belief, and action your plan to create a rich and meaningful life.

The program supports a community of people exploring recovery in its many forms.

Up to eight individuals will join us to actively commit to rebuilding their lives. We recognise that your gifts, experiences, aspirations and choices will help shape and contribute to the Recovery House community.

Your recovery is an active process and requires your commitment to all aspects of the program. During this time we will get to know each other and include families and significant others to support you in planning for the future.

At times you may choose to work through your past experiences with our support. Exploring these experiences in depth can be an opportunity to find new meaning and grow beyond what has happened to you.

Following the program, you will be offered contact for up to four weeks and continuous support for an additional six months to further your life plan.

for more information and to submit a referral, visit www.rw.org.au or call us on 1800 742 466.
